RESEARCH INTERESTS

Reinforcement Learning	Deep Learning	Artificial Intelligence
Game-AI	User-Personalization	Recommendation System
Data Science	Cognitive Science	Human-Computer Interaction

EDUCATION

- University of Tehran** Tehran, Iran
 - Master of Science - Control engineering; GPA: 3.53/4.0* Sep. 2019 - Present
 - Thesis title:** “**Dynamic Difficulty Adjustment** through Reinforcement Learning”
 - Thesis publication:** In Progress - Final phase (data gathering)
 - Courses:** Neural Networks, Pattern Recognition, System Identification, Principles of Cognitive Science, Massive data analysis and systems, Social networks, Nonlinear System Analysis
- Imam Khomeini International University** Qazvin, Iran
 - Bachelor of Science - Electrical Engineering (Telecommunication)* Sep. 2014 - July 2019

PUBLICATIONS

- Dynamic Difficulty Adjustment through Reinforcement Learning in a memory game** In progress
 - International Serious Games Symposium (ISGS)*

RESEARCH EXPERIENCE

- Research assistant at University of Tehran** Tehran, Iran
 - Advance Robotics and Intelligence Systems Laboratory* Aug. 2020 - Present
 - Dynamic Difficulty Adjustment** through Reinforcement Learning in memory game:
 - Conducted a systematic review.
 - Formulated a reinforcement learning problem that produces personalized memory tasks based on users’ performance. The RL agent is trained in a simulated RL environment, then in the real world.
 - Defined a measure of difficulty for the visual-spatial-working-memory game.
 - Developed and implemented some algorithms which extract visual-spatial-working-memory features.
 - Implemented a visual-spatial-working-memory game capturing gameplay and gaze data with an eye tracker in Python.
 - Gathered data (In progress).
 - ADHD Screening:** Employed a hand-eye coordination game whose aim is distinguishing ADHD children from normal children.

TEACHING MENTORING EXPERIENCE

- Teacher Assistant of Linear Control Course at University of Tehran** Tehran, Iran
 - Prepared quiz answers and graded quiz sheets.* Sep. 2021 - Feb. 2021
- Teacher and Student Advisor at High School (part-time)** Tehran, Iran
 - Taught complementary math and physics classes and held motivational counseling sessions.* Sep. 2014 - May 2015
- Python programming mentor** Tehran, Iran
 - Assisted several master’s students in implementing and debugging their theses.* Sep. 2019 - Des. 2019
- University National Entrance Exam (Konkour) mentor** Tehran, Iran
 - Provided scheduling and time management advice to Konkour applicants.* 2019

PROJECTS

- **Honey memory game:** Implemented a visual-spatial-working-memory game that stores gaze data as well as gameplay data. Tech: Pygame, eye tracker.
- **Control of a mountain car using reinforcement learning (Reinforcement Learning):** Implemented the actor-critic algorithm from scratch and compared with Stable-baselines3 benchmark. Tech: Python.
- **Analysis of Iran stock market data using MongoDB (Big Data):** Designed a pipeline for downloading and storing data, then preprocessing and analyzing it. Tech: Pymongo, MongoDB.
- **Analysis of Iran stock market data using Spark (Big Data):** Preprocessed and analyzed data with Pyspark in Google Collaboratory. Tech: Google Collaboratory, Pyspark (Spark Dataframe, Spark SQL, Spark RDD, Spark GraphX).
- **Inserting data into Cassandra (Big Data):** Designed appropriate tables to insert data into tables and queried data using cqlsh. Tech: Cassandra, cqlsh bash.
- **Generative Deep Learning (Deep Learning):** Trained a variational autoencoder (VAE) on MNIST dataset. Tech: Tensorflow, Google Collaboratory.
- **Generative Deep Learning (Deep Learning):** Trained DCGAN, CGAN and InfoGAN on Cifar10 dataset. Tech: Tensorflow, Google Collaboratory.
- **Real-Time clock implementation (Embedded systems):** Prototype and analysis of multiple RTC generator circuits.

SKILLS

- **Programming Languages:** Python, SQL, Matlab, HTML, CSS
- **Python Libraries:** Gym, Stable-baselines3, RLlib, Sklearn, TensorFlow, Keras, Pandas, Numpy, Matplotlib, Pyspark, Pymongo, Snap, NetworkX, igraph, pygame
- **Big data tools:** MongoDB, Cassandra, Elasticsearch, Pyspark, kafka
- **Tools:** GIT, LaTeX, Linux
- **Soft Skills:** Problem Solving, Hard Working, Communication, Team Work, Scheduling, Antipathy
- **Language:** English (proficient), Farsi(native)

TEST SCORES

- **TOEFL:** Oct. 29
- **GRE:** Dec. 1

HONORS AND AWARDS

- Ranked 2900^{th} among more than $500\ 000$ participants at the University National Entrance Exam (Konkur).
- Ranked 31^{th} among more than $20\ 000$ participants at the University National Entrance Exam (Konkur).
- 3^{rd} rank out of 50 students in high school.

INTERESTS AND HOBBIES

Barbecue, Hiking, Camping
Football tennis, Swimming, Biking, Badminton
Board game, Chess, Backgammon
Coding for fun, Podcast, Movies, and Series
